SUMMARY

Informatics graduate with multidisciplinary experience spanning mobile application engineering, full-stack software development, and network systems. Combines hands-on production experience engineering hospital asset management systems in Flutter with distributed web applications built using Next.js, Laravel, and Bun/Elysia. Supported by a strong academic record (GPA 3.77/4.00), national certification as a Junior Programmer (BNSP), and practical expertise in cloud ecosystems, RESTful API architecture, and microservices deployment.

EDUCATION

Universitas Binaniaga Indonesia Sep 2022 – Aug 2026
Bachelor of Science in Informatics – GPA: 3.77 / 4.00 *Bogor, West Java, Indonesia*

- **Undergraduate Focus**: Mobile Software Engineering, Relational Database Systems, and Cloud-Integrated Web Services.
- **Academic Honors**: Recipient of Academic Achievement Scholarship (*Beasiswa Prestasi Akademik*, 2022).
- **Academic Standing**: Conferred Bachelor of Computer Science degree with Distinction (SKL No. 258/UNBIN-C/FINKOM/IX/2026).

SMK Geo Informatika Jul 2019 – May 2022
Vocational Diploma in Computer and Network Engineering (TKJ) – Final Score: 81.00 / 100 *Bogor, West Java, Indonesia*

- **Academic Standing**: Ranked Top 10 Best Graduates in Computer and Network Engineering (Class of 2022).
- **Technical Training**: Cisco networking curriculum, TCP/IP routing and switching, LAN/WAN setup, and server administration.

EXPERIENCE

Mobile Developer Intern Feb 2025 – Jul 2025
Rumah Sakit UMMI Bogor *Bogor, West Java, Indonesia*

- Developed and deployed **SIMARU** (Sistem Informasi Manajemen Aset Rumah Sakit), a cross-platform mobile application in **Flutter** and **Dart** across a 4-person engineering team to digitize clinical asset inspections.
- Engineered high-performance **QR code scanning** functionality for real-time asset tracking, identity verification, operational condition logging, and department-level room location tagging.
- Architected dynamic **Firebase Cloud Messaging (FCM)** push notifications with custom background and foreground message handlers, ensuring prompt dispatch of inspection alerts and maintenance tasks.
- Implemented automated **FCM token refresh and server synchronization** routines, guaranteeing reliable message delivery across varied Android power states and intermittent network connectivity.
- Integrated secure **RESTful API endpoints** with hospital backend services, standardizing JSON payloads and establishing error-handling routines for erratic network conditions.

Data Entry Specialist (Vocational Internship / PKL) Dec 2020 – Feb 2021
PT Batavia Tatasarana Jaya *Central Jakarta, Indonesia*

- Streamlined digital market data collection and electronic office administration across enterprise database management systems.
- Executed data integrity checks, record deduplication, and structured cataloging, maintaining zero-defect records across daily operational logs.
- Formulated standardized digital spreadsheet filing protocols that accelerated cross-departmental data retrieval efficiency.

Technical Production & Lighting Crew Sep 2019 – Dec 2022
Ekstrakurikuler Film Geosinema, SMK Geo Informatika *Bogor, West Java, Indonesia*

- Managed lighting rig setups, electrical safety distributions, and equipment operations for institutional short film projects and live campus broadcasts.
- Collaborated closely with multi-departmental creative crews under strict production timelines, resolving technical and electrical faults on set.

LEADERSHIP EXPERIENCE

Technical Project Lead & Software Coordinator Oct 2024 – Jan 2025
Academic Software Engineering Initiatives, Universitas Binaniaga Indonesia *Bogor, West Java, Indonesia*

- Led technical problem-solving sessions and structured systems analysis for academic software engineering projects, aligning software architecture with project specifications.
- Standardized collaborative version control and code review workflows using **Git** and **GitHub**, establishing branch management protocols and assisting developers through technical roadblocks.
- Authored technical documentation, system architecture diagrams, and REST API specifications to streamline knowledge transfer and maintain development consistency.

SELECTED TECHNICAL EXPERIENCE

SIMARU – Hospital Medical Asset Inspection & Tracking Mobile App [GitHub ↗] Feb 2025 – Jul 2025
Tech: Flutter, Dart, Firebase Cloud Messaging (FCM), REST API, QR Scanner *Mobile Healthcare Application*

- Developed a cross-platform mobile application using **Flutter** and **Dart** to modernize medical asset tracking, featuring instant QR code verification, stock opname workflows, and field damage complaint logging across hospital wards.
- Integrated dynamic FCM notification handling with local background handlers, automated device token synchronization with server endpoints, and structured open-source architecture across 71 tracked commits.

Digital Skyboard – Flight Information Display System (FIDS) [GitHub ↗] Jan 2026 – Feb 2026
Tech: Next.js 15, Laravel, PHP, MySQL, Docker Compose, Nginx, SweetAlert2 *Full-Stack Microservices Application*

- Engineered an enterprise-grade Flight Information Display System (FIDS) featuring real-time flight status visualization (**On Time**, **Delayed**, **Boarding**, **Gate Closed**, **Departed**) with automated 30-second polling and boarding audio announcements.
- Architected a containerized microservices topology using **Docker Compose** and an **Nginx** reverse proxy gateway decoupling the Next.js 15 frontend from the Laravel API, complete with administrative CRUD portals.

Streamely – High-Performance Entertainment Streaming & Discovery Platform [GitHub ↗] Aug 2025 – Dec 2025
Tech: Bun, Elysia.js, Svelte, Vite, TypeScript, TVmaze & OMDB API, Cloudflare Tunnel *Full-Stack Web Application*

- Developed an ultra-fast streaming and discovery web platform powered by a lightweight **Bun** and **Elysia.js** API gateway, bootstrapping and caching 15,000+ title metadata records in-memory at startup for sub-millisecond edge latency.
- Built a client-side recommendation engine utilizing the **Jaccard similarity index**, heuristic TVmaze/OMDB proxying, and a multi-source video player with automated failover (**VidSrc**, **MultiEmbed**, **2Embed**) synchronized via localStorage.

TECHNICAL SKILLS

- **Programming Languages**: Dart, JavaScript (ES6+), TypeScript, PHP, Python, C, SQL, HTML5, CSS3.
- **Mobile & Full-Stack Web**: Flutter, Android SDK, React.js, Next.js (v14/15), Svelte, Vite, Tailwind CSS, Bootstrap, Progressive Web Apps (PWA).
- **Backend & Database**: Node.js, Express.js, Laravel 11, Bun, Elysia.js, RESTful APIs, JSON Web Tokens (JWT), Middleware, Authentication, MySQL, SQLite, Firebase (FCM, Firestore).
- **Cloud, DevOps & Architecture**: Docker, Docker Compose, Nginx Reverse Proxy, Cloudflare Tunnel, PM2, Microsoft Azure, AWS Basics, Microservices Architecture.
- **IT Support & Networking**: TCP/IP, IPv4 Subnetting, LAN/WLAN Configuration, Cisco Packet Tracer, Hardware Diagnostics, Software Troubleshooting, Windows & Linux OS Deployment.
- **Tools & Methodologies**: Git, GitHub, VS Code, Android Studio, Postman, Figma, Agile/Scrum, Spec-Driven Development, Clean Architecture.

CERTIFICATIONS & CREDENTIALS

- **National Agency for Professional Certification (BNSP)**: Certified Junior Programmer / Coder (Sep 2026 – Sep 2029) [Certificate]
- **Dicoding Indonesia**: Building Gen AI Applications with Microsoft Azure (Sep 2026) [Certificate]
- **Dicoding Indonesia**: Spec-Driven Development with Kiro (Sep 2026) [Certificate]
- **Dicoding Indonesia**: Getting Started with Python (Oct 2026) [Certificate]
- **Dicoding Indonesia**: Cloud & Gen AI Basics on AWS (Oct 2026) [Certificate]
- **Dicoding Indonesia**: Data Science with Microsoft Fabric (Sep 2026) [Certificate]
- **Dicoding Indonesia**: SOLID Programming Principles (Jun 2025) [Certificate]
- **Cisco Networking Academy**: CCNA – Introduction to Networks (Sep 2025) [Certificate]
- **Cisco Networking Academy**: Operating Systems Basics & English for IT 1 (Sep 2025) [Certificate]
- **MAC Training**: English Conversation Proficiency Certification (Score Verified) (Aug 2026) [Certificate]
