CORE SKILLS

Flutter · Dart · Android SDK · Next.js 15 · React.js · TypeScript · Python · Node.js · Laravel 11 · Bun & Elysia · MySQL · Docker · Nginx · REST API · Git / GitHub · Figma (UI/UX)

LANGUAGES

- **Indonesian** — Native Proficiency
- **English** — Technical & Conversational (TOEFL ITP / MAC Verified)

HONORS & AWARDS

- **Academic Achievement Scholarship** — Universitas Binaniaga Indonesia (2022)
- **Top 10 Best Vocational Graduate** — Computer & Network Engineering (2022)

ARYA WIGUNA

INFORMATICS · MOBILE ENGINEERING · FULL-STACK DEVELOPMENT

ABOUT ME

Informatics graduate (GPA 3.77/4.00) with multidisciplinary expertise spanning mobile application engineering, full-stack software development, and network infrastructure. Experienced in building clinical medical asset inspection systems at UMMI Hospital using Flutter, as well as distributed web applications with Next.js, Laravel, and Bun/Elysia. Nationally certified as a Junior Programmer (BNSP) and committed to architecting clean, scalable, and resilient software solutions.

WORK EXPERIENCE

Mobile Developer Intern — Feb 2025 – Jul 2025
Rumah Sakit UMMI Bogor — *Bogor, West Java, Indonesia*

- Developed cross-platform mobile app **SIMARU** using **Flutter** & **Dart** within a 4-person team to digitize medical equipment inspection workflows.
- Engineered high-accuracy **QR Code scanning** for real-time asset identification, status logging, and department room tracking.
- Architected dynamic **Firebase Cloud Messaging (FCM)** push notifications with custom background and foreground handlers for maintenance alerts.
- Implemented automated FCM token refresh and server synchronization routines for guaranteed alert dispatch.
- Integrated secure **RESTful API endpoints** with hospital backend infrastructure, standardizing JSON payloads.

Data Entry Specialist (Vocational Internship) — Dec 2020 – Feb 2021
PT Batavia Tatasarana Jaya — *Central Jakarta, Indonesia*

- Administered digital market data collection and electronic office management across database systems.
- Conducted data validation, record deduplication, and structured cataloging with zero-defect accuracy.
- Formulated standardized digital spreadsheet filing protocols that accelerated cross-departmental data retrieval.

Technical Production & Lighting Crew — Sep 2019 – Dec 2022
Ekstrakurikuler Film Geosinema, SMK Geo Informatika — *Bogor, Indonesia*

- Managed lighting rig setups, electrical safety distribution, and stage lighting hardware operations.
- Collaborated with creative crews under strict production timelines, resolving technical faults on set.

EDUCATION

Universitas Binaniaga Indonesia — Sep 2022 – Aug 2026
Bachelor of Science in Informatics · GPA: 3.77 / 4.00 — *Bogor, Indonesia*

- Graduated with Distinction (SKL No. 258/UNBIN-C/FINKOM/IX/2026). Focus: Mobile Software & Cloud Web Services.

SMK Geo Informatika — Jul 2019 – May 2022
Vocational Diploma in Computer & Network Engineering (TKJ) · Score: 81.00 / 100 — *Bogor, Indonesia*

- Ranked Top 10 Best Graduates. Training: Cisco Networking, TCP/IP Routing, Switching, and Server Administration.

TECHNICAL PILLARS

- **Mobile Dev:** Flutter, Dart, Android SDK, State Management, FCM Push.
- **Web Frontend:** Next.js 15, React, Svelte, Vite, Tailwind, PWA.
- **Backend API:** Node.js, Express, Laravel 11, Bun, Elysia.js, RESTful.
- **Databases:** MySQL, SQLite, Firebase, Relational Modeling.
- **DevOps & Cloud:** Docker Compose, Nginx Reverse Proxy, Cloudflare.
- **IT Systems:** TCP/IP, IPv4 Subnetting, LAN/WLAN, Cisco Packet Tracer.

METHODOLOGIES

- Agile & Scrum Delivery
- Spec-Driven Development
- Clean Architecture & SOLID
- Git Branching & Code Review
- API Contract Design

BNSP CERTIFICATION

Certified Junior Programmer
National Professional Certification Agency
Reg No: TIK 2977 031511900
Valid: 2026 – 2029

LEADERSHIP EXPERIENCE

Technical Project Lead & Software Coordinator Oct 2024 – Jan 2025
Academic Software Engineering Initiatives, Universitas Binaniaga Indonesia *Bogor, Indonesia*

- Led technical problem-solving sessions and structured systems analysis for academic software projects.
- Standardized collaborative version control and code reviews using **Git & GitHub** with clear branching models.
- Authored technical architecture diagrams, system flowcharts, and REST API contract specifications.

FEATURED TECHNICAL PROJECTS

SIMARU – Hospital Medical Asset Tracking App [GitHub ↗] Feb 2025 – Jul 2025
Tech: Flutter, Dart, Firebase Cloud Messaging (FCM), REST API, QR Scanner *Mobile Healthcare App*

- Developed a mobile app in **Flutter** & **Dart** to modernize medical equipment tracking via instant QR code verification, stock opname workflows, and field damage logging across clinical wards.
- Integrated dynamic FCM notification handling with local background handlers, server token synchronization, and open-source architecture with 71 commits.

Digital Skyboard – Flight Information Display System [GitHub ↗] Jan 2026 – Feb 2026
Tech: Next.js 15, Laravel, PHP, MySQL, Docker Compose, Nginx, SweetAlert2 *Full-Stack Microservices*

- Engineered an enterprise Flight Information Display System with real-time status visualization (On Time, Delayed, Boarding, Departed), automated 30-second polling, and boarding audio announcements.
- Designed a containerized microservices topology using **Docker Compose** and an **Nginx** reverse proxy gateway decoupling the Next.js 15 UI from Laravel REST APIs.

Streamely – Media Streaming & Discovery Platform [GitHub ↗] Aug 2025 – Dec 2025
Tech: Bun, Elysia.js, Svelte, Vite, TypeScript, TVmaze & OMDB API, Cloudflare Tunnel *Full-Stack Web App*

- Engineered an ultra-fast streaming platform powered by **Bun** & **Elysia.js** with in-memory caching of 15,000+ title metadata records at startup for sub-millisecond edge latency.
- Built a client-side recommendation engine utilizing the **Jaccard similarity index**, heuristic TVmaze/OMDB proxying, and a multi-source video player with automated failover (VidSrc, MultiEmbed, 2Embed).

CERTIFICATIONS & CREDENTIALS

- **BNSP**: Certified Junior Programmer / Coder (Sep 2026 – Sep 2029) [Certificate ↗]
- **Dicoding**: Building Gen AI Applications with Microsoft Azure (Sep 2026) [Certificate ↗]
- **Dicoding**: Spec-Driven Development with Kiro (Sep 2026) [Certificate ↗]
- **Dicoding**: Getting Started with Python (Oct 2026) [Certificate ↗]
- **Dicoding**: Cloud & Gen AI Basics on AWS (Oct 2026) [Certificate ↗]
- **Dicoding**: Data Science with Microsoft Fabric (Sep 2026) [Certificate ↗]
- **Dicoding**: SOLID Programming Principles (Jun 2025) [Certificate ↗]
- **Cisco**: CCNA – Introduction to Networks (Sep 2025) [Certificate ↗]
- **Cisco**: Operating Systems Basics & English for IT 1 (Sep 2025) [Certificate ↗]
- **MAC Training**: English Conversation Proficiency (Score Verified) (Aug 2026) [Certificate ↗]
